

CANNON OFFSHORE FUNDS

Deposit Plus Fund May 2013

INVESTMENT OBJECTIVE

The Fund seeks to achieve its investment objective by investing in deposits, short dated government bonds, short dated corporate bonds and selected funds with low portfolio duration where appropriate. Bonds will generally be of 5 year maturity or less and the average portfolio maturity will generally be 3 years or less. Substantial exposure to gilts and deposits may also be held from time to time.

INVESTMENT COMMENT

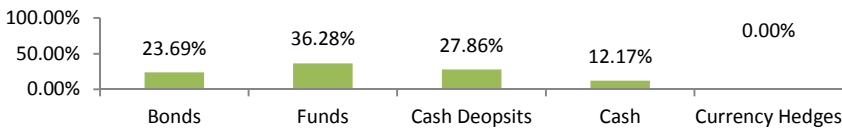

The fund performance eased slightly during the month as the US Federal Reserve Chairman warned about the tapering of bond market support. However for the month the fund was still up and finished with a year to date total return of 1.32%. Most of the negative impact on the portfolio was from bond returns with deposits and cash contributed positively to the fund value for the month. However, as mentioned in the past, these rates are declining with falling wholesale bank and deposit rates, which remain a challenge. Funds together with cash and deposits, remain the bulk of the portfolio's value. Interest rates on new deposits and notice accounts continue to trend downwards and we remain concerned about the distorting impact of central bank policy, but we are of the view economic recoveries are weak and this will prevent higher rates from central banks.

IMPORTANT INFORMATION

The value of units may go down as well as up and investors may get back less cash than they originally invested. Past performance is not necessarily a guide to the future. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down. The units of Cannon Deposit Plus Fund are traded at ruling prices and are priced weekly using the forward pricing method. A schedule of fees and charges and maximum commissions is available on request from Cannon Asset Management Limited, The Management Company. Cannon Deposit Plus is a collective investment scheme, which invests in other collective investment schemes, which levy their own charges, together with direct investment in investment grade bonds. Commission and incentives may be paid and if so, are included in the overall costs. Figures quoted are from Cannon Asset Management Limited for a lump sum investment using sell-sell prices, which exclude initial fees. Cannon Capital Advisors Limited funds are distribution funds and do not distribute income. Performance is quoted in sterling terms.
