

CANNON OFFSHORE FUNDS

Deposit Plus Fund January 2015

INVESTMENT OBJECTIVE

The Fund seeks to achieve its investment objective by investing in deposits, short dated government bonds, short dated corporate bonds and selected funds with low portfolio duration where appropriate. Bonds will generally be of 5 year maturity or less and the average portfolio maturity will generally be 3 years or less. Substantial exposure to gilts and deposits may also be held from time to time.

INVESTMENT COMMENT

Europe produced notable events, including Switzerland abandoning a peg to the Euro, the ECB announcing €1.1bn of quantitative easing (QE) and the election of a confrontational Greek government opposed to austerity. The IMF downgraded growth forecasts for the world but oil fell further during the month. Bond markets rallied due to the ECB action and oil weakness which markets interpreted as less inflationary. The latter will be simulative for most economies however. UK and European equities rallied on the ECB announcements despite Greek developments, though Swiss and Greek equity markets were exceptions naturally for the month. US markets struggled with worries about a strong dollar. Asia and most other markets gained from the ECB's policy and weaker oil. The fund returned 0.35% for the month.
