

CANNON OFFSHORE FUNDS

Deposit Plus Fund February 2015

INVESTMENT OBJECTIVE

The Fund seeks to achieve its investment objective by investing in deposits, short dated government bonds, short dated corporate bonds and selected funds with low portfolio duration where appropriate. Bonds will generally be of 5 year maturity or less and the average portfolio maturity will generally be 3 years or less. Substantial exposure to gilts and deposits may also be held from time to time.

INVESTMENT COMMENT

US employment and economic reports were positive painting a strong picture of growth which increased expectations of a rate rise this year. The US central bank re-stated that any rises would take account of economic developments. In Europe, Germany also registered improving employment, investment and wage improvements. Growth also improved in Spain & Portugal while Italy avoided economic contraction. Additionally, Greece appeared to agree temporary support from creditors. The UK continued to expand and see increasing employment. Government bonds fell and most corporate bonds rallied as a consequence of these developments. The fund returned 0.35% for the month taking the year to date figure to 0.70%.
