

CANNON OFFSHORE FUNDS

Cannon Deposit Plus Fund February 2018

INVESTMENT OBJECTIVE

The Fund seeks to achieve its investment objective by investing in deposits, short dated government bonds, short dated corporate bonds and selected funds with low portfolio duration where appropriate. Bonds will generally be of 5 year maturity or less and the average portfolio maturity will generally be 3 years or less. Substantial exposure to gilts and deposits may also be held from time to time.

INVESTMENT COMMENT

February saw a significant correction in equity prices, wiping out most of the gains of a strong January. Concerns over rising wages and inflation sent US bonds lower, triggering a global reaction. However, most economic indicators remain favourable. In the UK for example, the Bank of England upgraded its growth forecast for the economy and the Governor stated that interest rates would probably have to go up more quickly to keep inflation within the Bank's target.
