* Measured on bid price to bid price movement

* All performance figures calculated net of fees

FUND OBJECTIVES

The aim of the Cannon Global Greats Fund is to provide investors with long-term capital growth through exposure to a portfolio of global equities which have the potential to generate returns ahead of global equity markets.

The Cannon Global Greats Fund focuses on high quality companies which can be acquired at fair to attractive prices. These businesses typically have a competitive advantage which insulate them from competition and allow for high future growth. The Fund's emphasis on quality is combined with the requirement for a margin of safety in the price.

The fund is Dollar denominated and it consists of a basket of global equities that are not hedged back into Dollar.

Cut off time:	Issues: 5 o'clock, 3 business days before dealing day Redemptions: 5 o'clock, 2 business days before dealing day

COMMENTARY

The portfolio delivered 7.9% in Q4-2019, as the MSCI World Index posted 8.7%. At sector level, the portfolio benefitted from underweight allocations to utilities, consumer staples and materials; along with an overweight in industrials. Detractors included overweight allocations to energy and financials; as well as underweights in healthcare and information technology. At stock level, the portfolio benefitted from overweight positions in Fastenal, Marathon Petroleum, SAP, Enbridge, LKQ Corp and Amgen. Detractors included exposures to Travelers Cos, CH Robinson, Northrop Grumman, Public Storage, Cerner Corp and Starbucks.

Portfolio activity during the quarter included taking partial profits in Apple, Walt Disney and Northrop Grumman. The proceeds were used to take up new positions in Citrix, Straumann Holdings and McKesson. The portfolio also reduced its financials allocation by trimming Brookfield Asset Management and Ameriprise Financial. The reduction in Cummins, which has worked well for the portfolio as it had been a thematic switch from WW Grainger, was also carried out.
