

CANNON OFFSHORE FUNDS

Eris ICC Limited Cannon Global Opportunity Fund IC Limited
December 2019

INVESTMENT OBJECTIVE

The investment objective of the Fund is long term capital growth which the Fund will seek to achieve by investing in a concentrated portfolio of assets and investment strategies. Assets that may be included are equities, fixed income, property and cash investments. It will utilise a variety of investment strategies including tactical asset allocation to absolute return investments within each asset class.

INVESTMENT COMMENT

The final month of 2019 contained two market-friendly developments. A strong Conservative majority in the UK election removed some of the political uncertainty in the country. This was widely considered the preferable option over the potential disruption of a Corbyn government and markets reacted accordingly, with a strong jump in both the British pound and UK shares immediately following the result. Towards the end of the month, Donald Trump provided the markets with some festive cheer by implying that the first phase of a trade deal with China was all but signed, raising hopes that a conclusion to this protracted spat may be around the corner. By the end, it was a positive month for risk assets to round out what was an exceptional year for investment returns, with both equity and bond markets posting excellent numbers over the 12 months.

IMPORTANT INFORMATION

Investment in the units of open-ended investment funds is generally a medium to long-term investment. The value of units may go down as well as up and investors may get back less cash than they originally invested. Past performance is not necessarily a guide to the future. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down. The units of Cannon Global Opportunity Fund IC Limited are traded at ruling prices and are priced monthly using the forward pricing method. A schedule of fees and charges and maximum commissions is available on request from Cannon Asset Management Limited, the Management Company. Cannon Global Opportunity IC Limited is a collective investment scheme, which invests in other collective investment schemes, which levy their own charges. Commission and incentives may be paid and if so, are included in the overall costs. Figures quoted are from Cannon Capital Advisors Limited for a lump sum investment using sell-sell prices, which exclude initial fees. Cannon Capital Advisors Limited funds are accumulation funds and do not distribute income. Performance is quoted in sterling terms. Please refer to the prospectus of this scheme for more details, a copy of which is available on request from the Management Company, the registered office of which is Kingsway House, Havilland Street, St Peter Port, Guernsey, GY1 3FN.
