

CANNON OFFSHORE FUNDS

Cannon Deposit Plus Fund October 2019

INVESTMENT OBJECTIVE

The Fund seeks to achieve its investment objective by investing in deposits, short dated government bonds, short dated corporate bonds and selected funds with low portfolio duration where appropriate. Bonds will generally be of 5 year maturity or less and the average portfolio maturity will generally be 3 years or less. Substantial exposure to gilts and deposits may also be held from time to time.

INVESTMENT COMMENT

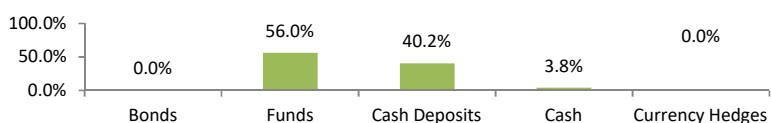

The main developments in October took place on either side of the Atlantic. The US and China tentatively agreed what many hope to be the first 'phase' of a broader trade deal. Domestic US economic data was sufficiently soft, however, to convince the Fed that further monetary support was required, and the third interest rate cut of the year followed at the end of the month. In the UK, Boris Johnson surprised many when he managed to break the Brexit impasse between the UK and EU, however an inability to obtain buy-in from the government ultimately led to the announcement of a general election in December. Uncertainty continues to abound in both Brexit and the US-China trade war, but the newsflow was generally supportive of equity markets over the month.

IMPORTANT INFORMATION

Investment in the units of open-ended investment funds is generally a medium to long-term investment. The value of units may go down as well as up and investors may get back less cash than they originally invested. Past performance is not necessarily a guide to the future. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down. The units of Cannon Deposit Plus Fund are traded at ruling prices and are priced weekly using the forward pricing method. A schedule of fees and charges and maximum commissions is available on request from Cannon Asset Management Limited, The Management Company. Cannon Deposit Plus is a collective investment scheme, which invests in other collective investment schemes, which levy their own charges, together with direct investment in investment grade bonds. Commission and incentives may be paid and if so, are included in the overall costs. Figures quoted are from Cannon Asset Management Limited for a lump sum investment using sell-sell prices, which exclude initial fees. Cannon Capital Advisors Limited funds and do not distribute income. Performance is quoted in sterling terms.
